What you need to know

PLUS loans are not automatically increased if your student selects a higher priced room, health insurance, or incurs other fees after we have processed your loan. You must complete this form and request an increase to cover those charges.

Calculate your loan*

PLUS loans have a 4.236% fee that reduces the amount applied to your bill. If you request \$10,000 (fee = \$423.60) which leaves \$9576.40. If you want \$10,000 to be applied to the bill here is how you calculate what you need to do: (desired loan amount) ÷ (.95764) = (amount you need to request, round up)

Increase my loan Loans can be increased**as long as the credit check has not expired (180 days from approval). Parents who have used an endorser may not use this form and must make increase requests by submitting a second application through studentloans.gov.	 I want to increase my overall loan* amount to \$having it evenly split over fall/spring terms. If you wish to have an uneven split also complete "Change my distribution amounts" section below
Reduce my loan If the College has already received funds in excess, the excess funds will be returned to the Department of Education.	 I want to reduce my loan* to \$ having it evenly split over fall/spring terms. If you would like an uneven split also complete "Change my distribution amounts" section below
Change my loan period Changing the loan period could change the amount of funds you receive and could cause a balance due.	 change my loan to a full year. change my loan to fall only. change my loan to spring only.
Change my distribution amount Maximizing a loan distribution in one term can cause a balance due in the other term.	 I want the maximum loan* amount for the fall term and the remainder <i>(if any)</i> applied to the spring term. If increasing/reducing overall loan fill in amounts: *FALL *SPRING
Cancel my loan in full All funds (and future payments) will be returned to the Department of Education. Cancelling loans in full may cause a balance due with the College.	•I want to cancel my loan in full.

**Loans can be increased up to the Cost of Attendance minus other resources (i.e. loans, grants, scholarships and work-study). Cost of Attendance (COA): includes tuition and fees; on-campus traditional room and board (or a housing and food allowance for off-campus students); and allowances for books, supplies, transportation, loan fees and personal items. Standard full year for returning on-campus student = 69,870 and single term = \$34,935.
