2022-2023 Independent Verification Worksheet

Your 2022-2023 Free Application for Federal Student Aid (FAFSA) was selected for review in a process called verification. The law states that before awarding and/or disbursing Federal Student Aid, we must ask you to confirm the information you and your spouse reported on your FAFSA. To verify that you provided correct information we will compare your FAFSA with the information on this worksheet and other required documents. If there are differences, your FAFSA information may need to be corrected or we may ask for additional information to resolve discrepancies. You must complete and sign this worksheet and attach any required documents by the deadline communicated to you by the Office of Financial Aid. If you have questions about verification, contact us as soon as possible so that the release of your financial aid will not be delayed or reduced.

HELPFUL RESOURCES

IRS Data Retrieval: The best way to verify income for tax filers is by using the IRS DRT that is part of FAFSA on the Web at FAFSA.gov (select 'Make a Correction'). You can use this tool 2-3 weeks after you electronically submit your taxes (or 8-11 weeks by paper). If you are not eligible to use the IRS DRT follow the IRS Tax Transcript instructions below.

Transcript Request: Go to www.irs.gov/transcript and select 'Get Transcript ONLINE' or 'Get Transcript by MAIL.' The online option will present security questions comprised of information from prior tax years. By mail option requires you to present your social security number, date of birth, and your exact address used on your 2020 tax return. If a 2020 amended tax return was filed, you must *also* submit a signed copy of the IRS Form 1040X and a paper copy of the IRS Tax Return Transcript — the DRT is not acceptable.

Non-Filer Statement: An IRS confirmation statement of non-filing is obtained by completing an IRS Form 4506-T and checking box 7 (form is available on our website). Form must be dated on or after October 1, 2021 that indicates a 2020 IRS income tax return was not filed with the IRS.

Married Filing Separate: Students who are married and file separate from their spouse cannot use the IRS data retrieval tool. You must each submit a tax return transcript or signed copies of your 2020 tax returns.
